

**Nova Southeastern University
Dr. Kiran C. Patel College of Osteopathic Medicine**

Policy Update:	Course Retake Program/Course Repeat
COM Program/Degree:	Osteopathic Medicine Program/D.O.
Effective Date Issued:	September 20, 2018
Student Handbook Issue:	2018-19 Academic Year

Portions of the Course Retake Program/Course Repeat policy have been corrected. The original policy, which can be found on page 110 of the 2018-2019 COM Student Handbook, is replaced with the following:

Course Retake Program/Course Repeat

Failure of a course remediation will result in the student having to repeat the course in its entirety, if eligible. Typically, a course is repeated either as part of the Course Retake Program or at the next regularly scheduled course offering. The repeated course may differ in format from the original course.

OMS1 Students

- who fail more than one remediation exam must retake all failed courses at their next regular course offering and may not progress to their M2 year until all M1 courses are passed
- who fail only one remediation exam will be eligible to participate in the course retake program. Students enrolled in the Course Retake Program forfeit the ability to repeat the course at the next regularly scheduled course offering
- who fail the course retake are eligible to take a remediation exam
- who successfully pass either the course retake or the remediation exam of the course retake will continue to the M2 class year of study
- who do not pass the remediation exam of the course retake will be referred to the Student Progress Committee and are subject to dismissal

OMS2 students

- who fail one or more remediation exams will be eligible to participate in the course retake program. Students enrolled in the Course Retake Program forfeit the ability to repeat the course at the next regularly scheduled course offering. They will be required to attend their core campus orientation session(s) during this time but will not start M3 rotations until all M2 courses are successfully passed, with the exception of COM 6990.
- who fail the course retake program for one or more courses are eligible to take a remediation exam

- who successfully pass either the course retake or the remediation exam of the course retake will start M3 clinical rotations at the onset of Rotation Block 3
- who do not pass the remediation exam of the course retake will be referred to the Student Progress Committee and are subject to dismissal
- who repeat an M2 systems course the following academic year, must also repeat the corresponding procedures component of the failed M2 systems course's block
