**Soccer: Origins and Politics**

On October 18, Dan Smith gave a presentation on how soccer—the most attended sport worldwide—is gaining popularity in the United States. He gave a background history for the sport known as “football” in every nation but the United States. Smith explained that his presentation was based on the reference book *The Simplest Game*, which was written by Paul Gartner in 1996. The early history of soccer was reviewed, leading to the present day World Cup tournament of this great pastime.

**Hollywood Presents History**

On October 25, Vincent Toscano, Ph.D., began presenting his “Hollywood Presents History” series, which features films that depict historical events and major shifts in American culture. His topics deal with the incidence of prejudice in the United States. The focal point of this talk was the 1955 Montgomery bus boycott. After opening his presentation with a lecture on the background events leading up to the boycott, he then showed *The Long Walk Home*—a movie depicting the Hollywood view of the boycott. Toscano’s presentation educated and enhanced his audience’s understanding of the 1955 Montgomery bus boycott.

**Blackbeard the Pirate**

On November 2, Edward Keith, Ph.D., an associate professor at Nova Southeastern University’s Oceanographic Center, presented *Black Beard the Pirate*, which is a compilation of his travel studies in the Caribbean. During his explorations, Keith went to different locations with past histories of pirate attacks from the 1700s. At the end of the lecture, Keith showed how an interest in pirate history has been renewed today through popular media like Disney’s *Pirates of the Caribbean*.

RICK LA VALLEY
Rick La Valley recently joined the Lifelong Learning Institute after retiring from 30 years of work as a firefighting paramedic in Miami-Dade Country. Before becoming a firefighter, he taught juniors and seniors in high school for three years.

La Valley’s current interest in the Lifelong Learning Institute stems from his involvement in attending the class entitled “Great Books of the Western World.” He was drawn in to be a member when he found out about the Writers’ Workshop, headed by Maxine Jordan. La Valley currently enjoys the variety of other presentations offered as well, participating in writing and reading in the Great Books group.

In 2009, he paddled a canoe 900 miles down the Mississippi River from St. Cloud, Minnesota, to St. Louis, Missouri. This feat shows that La Valley is still not afraid to face dangers and physical challenges as he did as a firefighter.

“I’m enjoying the people at the Lifelong Learning Institute and the variety of classes,” he stated.” To describe his lifestyle, La Valley references the great writer William Shakespeare by saying, “Our doubts are traitors and make us lose the good we oft might win by fearing to attempt.”

DONALD SIEGENDORF
Donald Siegendorf joined the Lifelong Learning Institute after retiring from 30 years of practice as a dentist in Miami Beach, Florida. He is currently a longtime member of the “back wall” bunch and has been married to his wife, Michelle, for 51 years.

Siegendorf is an avid writer of fantasy books and often reveals chapters of his work in the Writers’ Workshop group meetings. He also collects salt-water fish and enjoys clay sculpting as his major hobbies. His most significant life experience was serving as a U.S. Marine, which he says influenced his personality and interests today.
