The West Palm Beach VAMC opened its doors July 26, 1995 and provides primary and secondary level health care to eligible veterans in a seven-county area along Florida's Treasure Coast. Comprehensive services include medical, surgical and psychiatric inpatient care and outpatient services in each specialty. In addition, extended care services offer community residential care, adult-day health care, respite and hospice in addition to nursing home care. State-of-the-art equipment and professional employees dedicated to patient-centered care distinguish this facility as first class.

The VA Medical Center in West Palm Beach is a partner and a primary training site for the innovative NSU/Palm Beach County Health Department Preventive Medicine Residency. For a full description of the residency see the entry: [Nova Southeastern University in Cooperation with Palm Beach County Health Department—Preventive Medicine/Public Health.](#)
